Section 1.74, Title 14, CCR is amended to read:

§1.74. Salmon Punch Card and Steelhead Sport Fishing Report Card and Tagging Requirements.

(a) In addition to a valid sport fishing license, any person fishing for salmon in ocean waters north of Horse Mountain or in waters of the Klamath River system shall have in their possession a nontransferable Salmon Punch Card issued by the department. Anglers must immediately upon taking and retaining an adult salmon as defined in Section 27.80(d) in ocean waters, and over 22 inches total length in the river system, make a hole in the punch card in one of the designated locations and record the month, day, area of catch and species of salmon in the spaces provided.

The fee for a Salmon Punch Card is specified in Section 701. A Salmon Punch Card shall be valid for the calendar year. No person may purchase or possess more than one Salmon Punch Card or any Salmon Punch Card other than his own. Unless both the salmon punch card and the sport fishing license are issued through the Automated License Data System (see Section 700.4), any person who issues a Salmon Punch Card shall enter the card number on the appropriate space provided on the angler's valid sport fishing license. The sport fishing license number shall be entered on the punch card in the appropriate space provided.

Anglers must return punch cards to the department within 30 days of the close of the calendar year.

(b) In addition to a valid sport fishing license, any person fishing for steelhead trout in anadromous waters (see Section 1.04 for definition of anadromous waters) shall have in their possession a nontransferable Steelhead Fishing Report and Restoration Card issued by the department. For purposes of this regulation, a steelhead trout is defined as any rainbow trout greater than 16 inches in length found in anadromous waters. Anglers must immediately record, with a ball-point pen, the month, day, catch area, number of steelhead caught and kept, and number of steelhead caught and released whenever the cardholder finishes fishing for the day, moves to another river or stream, or retains a steelhead trout.

A Steelhead Fishing Report and Restoration Card shall be valid for the calendar year. When the card becomes completely filled in, any person may purchase another card. Anglers must return their card by January 31 of the following year to the address specified on the Steelhead Fishing Report and Restoration Card.

Revenue received from the sale of the cards may only be expended to monitor, restore, or enhance steelhead trout resources and to administer the report restoration card program. The card shall contain a statement explaining potential uses of the funds received.

(a) Purpose. These regulations address potential concern for overfishing and a lack of recreational fishing effort and catch information in some or all areas where the fishery operates. Many of these species are of high commercial value, and therefore, additional enforcement mechanisms are needed to improve compliance with existing bag limits and other regulations, and to reduce the potential for poaching.

(b) Species and Location Requirements. Individuals fishing for or taking the following species are subject to report card requirements in the following locations described below:

(1) Salmon, in the Klamath-Trinity River System only. The Klamath-Trinity River System is defined as the anadromous waters of the Klamath River and Trinity River basins. Anadromous waters are defined in Section 1.04.

(2) Steelhead trout, in all anadromous waters where take is authorized.

(3) White sturgeon, in all areas where take is authorized. Tagging of retained individual sturgeon is also required.

(4) Red abalone, in all areas where take is authorized. Tagging of retained individual abalone is also required

(5) California spiny lobster, in all areas where take is authorized.

(c) General Report Card Requirements.

(1) Any person fishing for or taking any of the species identified in this Section shall have in their possession a non-transferable report card issued by the department for the particular species. See special exemption regarding possession of report cards for lobster divers in Section 29.91.

(2) Notwithstanding other statutes and regulations that may exempt sport fishing license requirements, non-transferable report cards are required for any person fishing for or taking the species identified above. All cardholders shall adhere to all reporting and tagging requirements defined in this Section and Sections 5.79, 5.87, 5.88, 27.92, 29.16, and 29.91 regardless of whether a sport fishing license requirement applies. This provision applies to all of the following persons:

(A) Any person who is under 16 years of age

(B) Any person who is fishing from a public pier

(C) Any person who is fishing on free fishing days

(D) Any person who holds a lifetime fishing license

(3) Persons described in subsections 1.74(c)(2) may purchase report cards without purchasing a license.

(4) All entries made on any report card or tag must be legible and in indelible ink.

(5) **Entries Required at the Time of Report Card Issuance.** At the time of issuance of the report card, the cardholder is responsible for entry of the following information, unless both the report card and the sport fishing license are issued through the Automated License Data System:

(A) **Acquisition of Sturgeon Fishing Report Cards and Abalone Report Cards** - If the cardholder is required to have a sport fishing license, the report card number shall be entered in the designated space provided on the back of the individual's sport fishing license, and the sport fishing license number shall be entered on the report card in the appropriate space.

(B) **Acquisition of Klamath-Trinity Salmon Report Cards, Steelhead Report and Restoration Cards and Spiny Lobster Report Cards** - If the cardholder is required to have a sport fishing license, both the name of the report card and the number shall be entered in

the blank area on the back of the individual's sport fishing license, and the sport fishing license number shall be entered on the report card in the appropriate space.

(C) The date the report card is issued, the individual's name, street address, city, state, zip code, home phone, and date of birth shall be entered in the appropriate spaces on the report card. If the cardholder has a driver's license, or DMV identification number, this information shall also be entered in the appropriate spaces. If the cardholder has an e-mail address, it may be entered in the space provided.

(D) If the cardholder wishes to purchase another fishing license after their one, two, or ten-day sport fishing license has expired the cardholder need not purchase a second report card for any species, so long as the cardholder still possesses the report card valid for the calendar year. At the time of purchase of the subsequent license, the additional sport fishing license number shall be entered in the appropriate space on the report card. If there is a space provided for the particular card on the sport fishing license, the number shall be entered in the appropriate space at the time of purchase. If there is no space provided for the card, both the name of the report card and the number shall be entered on the back of the individual's sport fishing license.

(6) A report card shall be valid only during the open fishing season for the calendar year shown on the report card.

(7) Cardholders shall return their card by January 31 of the following year to the department at the address specified on the card.

(8) Any person who fails to return his or her report card to the Department by the deadline may be restricted from obtaining the same card in a subsequent license year or may be subject to an additional fee for the issuance of the same card in a subsequent license year.

(9) For abalone and sturgeon report cards, only one report card may be issued per person per license year.

(10) Report cards may not be transferred to another person and no person may possess any report card other than their own.

(d) Replacement Procedures for Lost Abalone or Sturgeon Report Cards. For species for which an individual may purchase only one report card per year (i.e., abalone and sturgeon), if the cardholder loses the card, a replacement card shall be acquired only by following the procedures below:

(1) The individual shall provide all of the following to a Department license office location:

(A) A photocopy of the original report card issued in the cardholder's name, unless the report card was issued through the Automated License Data System.

(B) An affidavit, signed under penalty of perjury, containing the following information:

(C) Proof of purchase of the original report card, in the form of an itemized receipt, credit card billing statement, invoice, or other written business record expressly documenting that a report card for the particular species was purchased and the corresponding fee was paid. The cardholder is exempt from this requirement if the report card was issued through the Automated License Data System.

(D) Payment of the Replacement Card Fee specified in Section 701(f), 701(g) or 701(h) Title 14, CCR, established pursuant to subdivision 1053(b) of the Fish and Game Code, and as adjusted pursuant to Sections 713 and 1055 of the Fish and Game Code.

(2) Any cardholder who loses his or her steelhead, salmon or lobster report card may purchase a second card, but at or before the time of purchase shall provide a written affidavit to the department at the address on the report card documenting the lost catch and effort data required by the card to the best of the cardholder's recollection.

(3) At the time the additional card is acquired, if the cardholder is required to have a sport fishing license, both the name of the report card and the number shall be entered on the back of the individual's sport fishing license, and the fishing license number shall be entered in the space provided on the report card.

(4) All regulations applicable to the initial card also apply to additional cards issued pursuant to this subsection.

(f) Specific Report Card and Tagging Requirements. Data recording and tagging procedures vary between report cards and species. See specific regulations in Sections 5.79, 5.87, 5.88, 27.92, 29.16, and 29.91 that apply in addition to the regulations of this Section.
